

Maytag Model: MER4600LS

Electric Range with Steam Clean - 5.3 cu. ft.

Color Stainless Steel

Product Description

This Maytag® steam clean stove can be cleaned in less than an hour using lower temperatures than regular self-cleaning ovens. Just add water, press the Steam Clean option and the self steam cleaning oven will soften baked-on residue that can be wiped away with a wet sponge. Use the warming center to keep finished food warm while the rest of your food cooks on your 5 burner electric stove. The Delay Bake setting is ready to bake when you are, allowing you to schedule when you want baking to begin. Gain confidence in your cooking precision with variable broil, which allows you to broil between 350°F to 500°F for a precise cook. When you're done cooking, the ceramic glass cooktop lets you easily wipe up any spills or messes on your self cleaning range.
